RECOMMENDATIONS

Future Outlook and Growth Strategies

Focus on Online Platform

Given the rising trend in online business since February 2023, continue to invest and expand the online presence

Targeted Marketing

Leverage insights on the 31-40 age group's contribution to revenue and customer base.

Develop targeted marketing campaigns tailored to this age group to maximize

Enhance Offline Agent Performance

Despite the online growth, continue to invest in offline agents who are still significant contributors. Provide training and tools to optimize their sales performance

Data Driven Decision Making

Invest in data analytics to better understand customer behaviour and preferences. Use predictive analytics to anticipate customer needs and tailor offerings accordingly

Data Driven Decision Making

Continuously innovate insurance products to meet evolving customer demands. Consider customizable plans or bundled offerings that cater to specific customer segments

Boost Performance in major City

With Delhi NCR and Mumbai being top revenue contributors, focus on enhancing customer experience and service in these cities.

Expanding presence and marketing efforts in Hyderabad, Chennai, and Indore can also capitalize on their growing contributions
